

# SPECIES' CITADEL'S TIMELINE: A VIRTUAL REALITY EXPERIENCE IN A PERIPHERAL ARCHAEOLOGICAL MUSEUM

University of Peloponnese  
Department of Informatics &  
Telecommunications

Jason Diakoumakos  
Anastasios Theodoropoulos  
George Lepouras

# VISION

## ARCHAEOLOGICAL VENUES

Concealed History  
Unreachable Artifacts  
Untold Stories

## TECHNOLOGY

Virtual Guides  
Story Telling  
VR Experiences

## ESCAPE ROOMS

Critical Thinking  
Problem-Solving  
Creativity

# SCT VR

VR Escape-Room Immersive Game

Cutting edge - HTC Vive Technology

Riddle Game

Highlighting artifact Significance

Based on actual Museum

## GOALS

### IMMERSION

VR technology

### HISTORICAL VALUE

Assist learning via carefully designed Riddles

### FUN

Users learn through gaming

## HISTORICAL ANALYSIS

Detailed historical analysis performed for each artifact

## 3D OBJECT GENERATION

Scanning of selected artifacts & generation of 3D models

Creation of 3D replica of actual museum's building

## RIDDLE GENERATION

Riddle creation for artifacts highlighting  
Origin

Importance

Usage

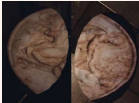

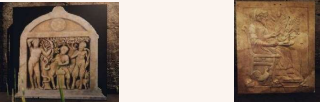

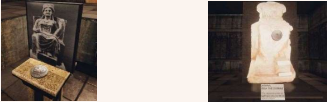

## PLOT

Creation of a main story & plot via combination of historical/  
mythological facts and fictional characteristics for high  
engagement

# IMPLEMENTATION

# RIDDLES

Simple

ARTIFACTS		
3D Object	Artifact	Riddle
	Hercules's Column	Separated in two halves scattered in the play area, that the user must find to unite. Place in the respective pillar, as described by the relevant inscription
	Sacrifice Tombstone & Hades – Persephone Tombstone	Spawned randomly in the play area and have to be placed on respective pillar. Inscription highlights historical importance.
	Market Tombstone	Separated in scattered parts that must be united to reconstruct actual exhibit
	Goddess Demeter & Goddess Athena	Protectors that assist user to face the underworld by providing divine powers

# RIDDLES

Complex

ARTIFACTS		
3D Object	Artifact	Riddle
	Lykosoura's Burst	Spawned in play area and must be positioned in relative pillar. Two manly bursts must be rotated to face towards her.
	Athlete and Mother & Family Tombstone	Objects of importance are scattered highlighting the historical significance of artifacts
	Young Girl Statue	Statue's pieces missing highlighting the daily life of children in antiquity
	Cybele Tombstone & Callisto Tombstone	Pieces of importance are scattered highlighting the importance of symbols (divine & household) in antiquity

SCT VR

# SPECIES' CITADEL'S TIMELINE

A beacon of Hope

OUTSIDE AREA

FIRST ROOM

# RIDDLE AREAS

# USER STUDY

# PARTICIPANTS

## UNIVERSITY STUDENTS

4 Males

1 Female

## VR TECHNOLOGY FAMILIARITY

Students were volunteered to participate in the play test and provide feedback

## DETAILED INFORMATION

Study's objective & Procedures were explained extensively before joining

# PROCEDURE

## SINGLE SESSION

Controlled laboratory area

## PRE-SESSION

Questionnaire about Demographic information &  
Prior experience with VR and Escape Room Games

## STC EXPLAIN

Connection to real archaeological venue & artifact significance  
Introduced to navigation system

## POST-SESSION

Semi-structured interview through open-ended questions  
Concerns & Difficulties encountered were addressed and clarified

# METRICS

**GAME WORLD  
IMMERSION**  
Sense of Presence  
Realism of artifacts  
Environment Interactivity

**MOTIVATION**  
VR Escape Room game  
Challenging Riddles  
Real-World Connection of artifacts

**LEARNING**  
Enjoyment  
Engagement  
Challenges

## RESULTS

### Immersion

"I felt completely immersed in the virtual environment and motivated to solve the riddles"

### Motivation

"The game sparked my curiosity and I felt connecting to the real archaeological artifacts"

### Learning

"The game challenged me to think critically and connect the riddles to the artifacts, depending my understanding of their cultural content"

### User Experience

"The game was a fun combination of fun and learning. Puzzles were challenging but also rewarding, providing a sense of accomplishment, making me appreciate the artifacts in a whole new way"

QUANTITATE  
MEASUREMENT

Learning outcomes derived from the immersive experience needs  
to further be researched  
Pre- & Post- assessments

GAME  
REUSABILITY

Create extended Artifact Library with pre-scanned artifacts  
Adaptability

DYNAMIC RIDDLE  
GENERATION

Contextually relevant riddles

Artifact related riddles

Multifaceted Approach

Modular puzzle-game

PROCEDURAL LEVEL  
GENERATION

Unique riddles dynamically generated for each venue

Unique Challenges

Captivating Narratives

## FUTURE WORK

# THANK YOU
